MU₂

Product description

Sierraform GT contains both slow release nitrogen and slow release potassium, along with conventional release N, P and K in a single compound micro granule. The slow release nutrition from Sierraform GT range promotes strong healthy turf grass growth and is particularly suited for use on fine turf areas.

Product advantages

1. For use in spring and summer during active turf growth.
2. 4:1:2 ratio to meet turf nutrient requirements.
3. Magnesium and TE for turf colour.
4. Trace element package to ensure maximum turf health.

Technology

---	---	---	---	---	---	---	---	---	---	---	---

Performance*

Granule dispersal: 2-3 days
Turf response: 7 days
Longevity: 6-8 weeks
* depending on environmental factors

Product characteristics

Bag size: 20 kg
Application Rate: 20 - 30 g/m²
Bag coverage: 667 - 1000 m²
Particle size: 0.7 - 1.4 mm
Granule count: 2200 - 2400 granules/gram
Item code: 4015

Itemcode 4015

Nutrient levels applied (kg/ha)

20 g/m ²			25 g/m ²			30 g/m ²		
N	P	K	N	P	K	N	P	K
44.0	10.0	22.0	55.0	13.0	28.0	66.0	15.0	33.0

Directions for use

- Apply to dry foliage and irrigate after 1-2 days if no rain has fallen. Irrigation will aid dispersion and minimise any risk of mower pick-up on close mown surfaces.
- Avoid applications during frosty or drought conditions.
- Delay verti-cutting and/or grooming for 3 days after application to allow the granules to disperse.
- Nitrogen release is significantly slowed down when soil temperatures are less than 10°C.
- Watering-in after application will minimize foot printing risk.
- If spilt on paving slabs, concrete, clothes etc. brush off immediately, as product may cause discolouration.

Storage

Keep away from heat and sources of ignition. Keep away from food, drink and animal feeding stuffs. For quality reasons: Keep out of reach of direct sunlight, store under dry

conditions, partly used bags should be closed well. Keep at temperatures between 0°C and 40°C.

Health and safety

A Material Safety Data Sheet is available on request.
