

## Sportsmaster<sup>®</sup> CRF

Balanced 18-8-17+2MgO+Fe

18-3.5-14.1+1.2Mg+Fe

### Product description

Sportsmaster CRF contains a combination of controlled release fertilizer technology with compound granular fertilizers. This controlled release technology leads to regular growth without growth peaks. The uncoated portion of this fertilizer allows an immediate response of the turf.

### Product advantages

1. Balanced NK fertilizer with P for use from spring to autumn.
2. Magnesium & Iron included to improve turf colour and to mask symptoms of stress.

## Directions for use

- Apply to dry foliage.
- Watering-in after application aids dispersion and gives a quicker initial effect.
- Avoid applications during frosty or drought conditions.
- Watering-in after application will minimise foot printing risk.
- If spilt on paving slabs, concrete, clothes etc. brush off immediately, as product may cause discolouration.
- Applications should be made after aeration programmes such as hollow tining, slitting and/or scarification to prevent granule damage.

## Storage

Keep away from heat and sources of ignition. Keep away from food, drink and animal feeding stuffs. For quality reasons: Keep out of reach of direct sunlight, store under dry conditions, partly used bags should be closed well. Keep at temperatures between 0°C and 40°C.

## Health and safety

A Material Safety Data Sheet is available on request.
