

Osmocote[®] Exact

11-11-18+1.5MgO+TE

Product description

Osmocote Exact, the 3rd generation of controlled release fertilizers, combines safety, consistency and patterned release. Different plants have different nutritional requirements and therefore need coated fertilizers that do not only guarantee longevity but also release pattern. Osmocote Exact closely follows plant growth, making the product not only very efficient but also very safe to use.

Product advantages

1. **Safety:** highest possible safety, controlled release and high level of all essential trace elements. Color-coded for longevity to avoid mistakes.
2. **Consistency:** very consistent product, every bag of product gives identical results, excellent quality control exceeding all industry standards.
3. **Patterned release:** available in various release patterns exactly tailored to crop requirements, to provide optimal plant growth. Very efficient and therefore environmentally friendly.

Product characteristics

Packaging details : 25 kg, paper bag
Product code : 8828
Coating process : 100% coated NPK + trace elements
3rd generation : NPK + TE levels guaranteed, patterned release

Directions for use

Osmocote Exact Standard High K is very suitable for pot plants requiring high potassium feeding such as cyclamen, violets or primulas, and when using with nitrogen-rich irrigation water. Osmocote Exact Standard High K is also ideal for herbaceous perennials. Osmocote Exact Standard High K works very well in combination with Peters Professional water-soluble feeding. The recommended rates should be adapted, depending on the amount of water-soluble feeding.

The longevity of Osmocote Exact Standard High K 8-9M is affected by temperature.
(Product longevity is determined at 21° C)

16 °C	21 °C	26 °C
10-11 M	8-9 M	6-7 M

Store under dry conditions. Partly used or damaged bags should be closed well.
