

Osmocote Exact Mini

15-9-11+2MgO+TE

Product description

Osmocote Exact Mini has been specially developed for applications in small substrate volumes. It is therefore ideal for pots smaller than 8 cm in diameter like plugs and trays with small compartments. The granules are smaller than the "standard" Osmocote Exact granules, yet this mini version still performs just as well. A good distribution can be achieved even in volumes starting at 20 ml.

Osmocote Exact Mini 3-4 months contains a complete package of trace elements and magnesium.

Product advantages

1. The reliability of Osmocote Exact, but a finer granule ideal for application in pots with small volumes.
2. Uniform plant growth as a result of excellent distribution of the granules.
3. 100% coated & 100% safe for plants.
4. Every granule contains all nutrients.
5. Easy and accurate dosage.
6. Separate nutrition and irrigation and therefore both optimized!
7. Easy application through mixing or topdressing.

Product characteristics

Packaging details : 10 kg, bucket
Product code : 8853
Coating process : 100% coated NPK + trace elements
3rd generation : NPK + TE levels guaranteed, patterned release

Directions for use

Osmocote Exact Mini can be applied in the growing medium or simply by topdressing after the roots have developed. It is primarily applied to combine the rooting stage with the repotting period. Cuttings substrate is quite low in nutrients and additional fertilizing via the sprinkler system is often difficult. Osmocote Exact Mini improves the quality of the cuttings significantly, leading to more yield and higher profits.

The longevity of Osmocote Exact Mini 3-4M is affected by temperature.
(Product longevity is determined at 21° C)

16 °C	21 °C	26 °C
4-5 M	3-4 M	2-3 M

Store under dry conditions. Partly used or damaged bags should be closed well.

Guaranteed analysis

15%	TOTAL NITROGEN (N) 6.6% nitrate nitrogen (NO ₃ -N) 8.4% ammoniacal nitrogen (NH ₄ -N)
9%	PHOSPHORUS PENTOXIDE (P₂O₅) Soluble in neutral ammonium citrate and in water, 6.7% water soluble
11%	POTASSIUM OXIDE (K₂O) 11% water soluble
2.0%	MAGNESIUM OXIDE (MgO)
0.03%	Boron (B)
0.050%	Copper (Cu)
0.45%	Iron (Fe) 0.08% chelated by EDTA
0.06%	Manganese (Mn)
0.020%	Molybdenum (Mo)
0.015%	Zinc (Zn)

Recommended application rates

	Light feeding	Normal feeding
Bedding plants	1.5-2 g/l	40-60 g/m ²
Vegetable young plants	2-3 g/l	50-70 g/m ²
Fast growing cuttings	1.5-2 g/l	30-50 g/m ²
Mini pot plants	1.5-2.5	30-50 g/m ²
Forestry cuttings	1-2 g/l	30-50 g/m ²
Forestry seedlings of species germinating within 2 months	1-2 g/l	30-50 g/m ²
Nursery stock cuttings	1-2 g/l	30-50 g/m ²

Attention

The above mentioned rates are based on unfertilized substrates. The pH level has to be adjusted according to crop requirements. Please be aware that these are general recommendations. Specific situations such as use in tunnels, green-houses, or specific climate conditions require adjustments. This product is not recommended for dibbling and/or autumn/winter pottings. Contact your Everris advisor for more detailed advice.

Trial first on a small scale before rate, application or other changes in your cultural practices are implemented. As circumstances can differ and as the application of our products is beyond our control, Everris cannot be made responsible for any negative results.
