

**Osmocote®
Topdress**
Fusion Technology

22-5-6+2MgO+TE

Product description

Osmocote Topdress FT is a coated fertilizer that is specially developed for topdress applications in container nursery stock. Osmocote Topdress FT combines the Osmocote coating and slow release technologies and releases its nutrients over a period of 4-5 months. Osmocote Topdress FT contains N, P, K, magnesium and all essential trace elements. It contains a special component which makes the product stick onto the growing medium after application, ensuring no loss of any granules if the pots are blown over.

Product Advantages

1. Osmocote Topdress FT contains fast and slow release nitrogen and phosphorous.
2. Fine granule size for an even distribution.
3. Osmocote Topdress FT sticks onto the growing medium – no loss of any granules if the pots are blown over.
4. Osmocote Topdress FT is dust free.
5. Osmocote Topdress FT contains extra trace elements for greening effect.

Product characteristics

Packaging details : 25 kg, plastic bag
Product code : 4161
Coating process : partly coated

Directions for use

Osmocote Topdress FT has been specifically developed for topdress applications in container nursery stock. Product can be topdressed on container plants for quick greening-up or for fast corrections of deficiency symptoms.

Topdressing can be done in case of overhead irrigation or drip irrigation. When using drip irrigation, the product should be placed directly under the dripper(s).

The product can be applied with recommended Everris topdress applicators. Ask your Everris advisor for more information.

Store under dry conditions. Partly used or damaged bags should be closed well.

Osmocote Topdress FT granules

Guaranteed analysis

22%	TOTAL NITROGEN (N) 4.9% nitrate nitrogen (NO ₃ -N) 5.8% ammoniacal nitrogen (NH ₄ -N) 11.3% urea nitrogen (Ur-N)
5%	PHOSPHORUS PENTOXIDE (P₂O₅) Soluble in neutral ammonium citrate and in water, 3.7% water soluble
6%	POTASSIUM OXIDE (K₂O) 6% water soluble
2.0 %	MAGNESIUM OXIDE (MgO) 1.0% water soluble
0.050%	Copper (Cu)
0.80%	Iron (Fe)
0.30%	Manganese (Mn)
0.100%	Zinc (Zn)

Recommended application rates

	Containers < 10 litres	Containers > 10 litre
Container Nursery Stock	2 – 4 g/l	for every extra litre content*

*Example

Total rate when using a 50 litre container:

3 g/l for first 10 litre = 30 gram

1 g/l for the additional 40 litre = 40 gram

Total = 30 + 40 = 70 gram per 50 litre container

Attention

Reduce the above mentioned recommended rates for sensitive plant material. Apply the product only by topdressing. In case drip irrigation is used, place the product under the drippers.

This product is not meant for mixing or dibbling in substrates. Topdress products cannot be used with capillary mats or ebb / flow irrigation systems. Contact your Everris advisor for more detailed advice.

Trial first on a small scale before rate, application or other changes in your cultural practices are implemented. As circumstances can differ and as the application of our products is beyond our control, Everris cannot be made responsible for any negative results.
