Osmocote® Topdress

19-6-11+2MgO+FE

Product description

Osmocote Topdress is a coated fertilizer that is specially developed for topdress applications in container nursery stock. Osmocote Topdress combines the Osmocote coating and a small amount of directly available N and P and releases its nutrients over a period of 5-6 months. Osmocote Topdress contains N, P, K, magnesium and iron.

Product Advantages

1. Osmocote Topdress contains fast and slow release nitrogen and phosphorous.
2. Osmocote Topdress is dust free.
3. Osmocote Topdress contains a high nitrogen, magnesium and iron content for a direct greening effect.

Product characteristics

Packaging details	: 25 kg, plastic bag
Product code	: 8726
Coating process	: partly coated (82% partly coated, 18% directly available) 84% coated N 78% coated P ₂ O ₅ 100% coated K ₂ O

Directions for use

Osmocote Topdress has been specifically developed for topdress applications in container nursery stock. Product can be topdressed on container plants for quick greening-up or for fast corrections of deficiency symptoms.

Topdressing can be done in case of overhead irrigation or drip irrigation. When using drip irrigation, the product should be placed directly under the dripper(s).

The product can be applied with recommended Everris topdress applicators. Irrigate well after application. Ask your Everris advisor for more information.

Store under dry conditions. Partly used or damaged bags should be closed well.

Osmocote Topdress 5-6M granules

Guaranteed analysis

19%	TOTAL NITROGEN (N) 8.9% nitrate nitrogen (NO ₃ -N) 10.1% ammoniacal nitrogen (NH ₄ -N)
6%	PHOSPHORUS PENTOXIDE (P₂O₅) Soluble in neutral ammonium citrate and in water, 4.5% water soluble
11%	POTASSIUM OXIDE (K₂O) 11% water soluble
2.0%	MAGNESIUM OXIDE (MgO)
0.50%	Iron (Fe)

Recommended application rates

	Containers < 10 litres	Containers > 10 litre
Container Nursery Stock	2 – 4 g/l	1 g/l for every extra litre content*

*Example

Total rate when using a 50 litre container:
3 g/l for first 10 litre = 30 gram
1 g/l for the additional 40 litre = 40 gram
Total = 30 + 40 = 70 gram per 50 litre container

Attention

Reduce the above mentioned recommended rates for sensitive plant material. Apply the product only by topdressing. In case drip irrigation is used, place the product under the drippers. Irrigate well after application.

This product is not meant for mixing or dibbling in substrates. Topdress products can not be used with capillary mats or ebb / flood irrigation systems. Contact your Everris advisor for more detailed advice.

Trial first on a small scale before rate, application or other changes in your cultural practices are implemented. As circumstances can differ and as the application of our products is beyond our control, Everris cannot be made responsible for any negative results.
