

## Agroblen<sup>®</sup> Total

15-8-11+4CaO+2MgO

### Product description

Agroblen Total is a complete fertilizer with a controlled-release action due to Everris' coating technology. The coating determines the correct amount and longevity of nutrient release. Because Agroblen Total is safe to the plants and easy to use, you will receive the best yield and quality from your strawberry crop.

	N	P <sub>2</sub> O <sub>5</sub>	K <sub>2</sub> O
Coated:	100 %	100 %	100 %

### Product advantages

- High Crop Safety**  
The constant release of nutrients results in an even and uniform plant growth without nutrient stress. For example, the EC values of the soil is more in-line with plant needs.
- Simple to Use**  
Agroblen Total continues to feed the plants for the entire production cycle. Only one application per year is needed.
- Increased Efficiency**  
The leaching of nutrients is greatly reduced with Agroblen Total compared to normal, uncontrolled fertilizers. You obtain high yields with less nutrient losses.
- Crop Security**  
Properly-fed plants are healthier and less susceptible to disease. Another advantage of Agroblen's Total controlled-release technology!

### Product characteristics

Average granule size	: 2.79 mm
Bulk density	: 975 kg/m <sup>3</sup>
Longevity	: 5 - 6 months at 21°C average soil temperature
Packaging weight	: 25 kg bag (PE)
Item code	: 8638.03.25

### Directions for use

- To be applied by row application or broadcasting.
- Do not apply Agroblen Total more than 1-2 weeks before planting.
- Work Agroblen Total in the soil at minimum 5 cm and maximum 10 cm depth.
- Close to the plant but not closer than 5 cm.
- Never directly under the plant!
- Place Agroblen Total under the dripper.
- Irrigation after planting improves product and plant performance.
- Do not use application equipment that will grind particles or damage the fertilizer coating.
- Before a new rate, product or application method is used, a small scale trial is recommended.

### Guaranteed analysis

15 %	<b>TOTAL NITROGEN (N)</b> 6.5 % nitrate nitrogen (NO <sub>3</sub> -N) 8.5 % ammoniacal nitrogen (NH <sub>4</sub> -N)
8 %	<b>PHOSPHORUS PENTOXIDE (P<sub>2</sub>O<sub>5</sub>)</b> 6.0 % water soluble
11 %	<b>POTASSIUM OXIDE (K<sub>2</sub>O)</b> 11.0 % water soluble
4.0 %	CALCIUM OXIDE (CaO)
2.0 %	MAGNESIUM OXIDE (MgO)
10.6 %	SULPHUR TRIOXIDE (SO <sub>3</sub> )

### Attention

As circumstances can differ and as application of products is beyond our control, Everris cannot be made responsible for any negative results. With this publication, all previous given recommendations expire. Before a new rate, product or application method is used, a small scale trial is recommended.

For more information or recommendation ask your local Everris dealer or Everris representative in your country. Consult [www.everris.com](http://www.everris.com) for your contact in the region.

### Recommended application rates

	Per hectare
Strawberry, plant propagation	250 - 300 kg/ha
Strawberry, everbearers in open field	500 - 600 kg/ha
